

Sonja Topping

I am a parent with children in year 5 and year 1 at Hocking Primary School. I work within education in Literacy Intervention. As both a parent and a teacher I am passionate about all children having the opportunity to achieve and succeed at school. I have experience working on multiple committees, including Wanneroo Playgroup, Gngalara Adult Equestrian Club and currently Ashdale Primary School Literacy Committee, providing advice and contributing to discussions to ensure decisions explore the many options available and achieve the best outcomes for all.

I would like to become a more active member of our school community and offer my experience to enhance our school's ability to achieve the very best in education. My background in education means I have a strong understanding of what the school wants and needs to achieve their goals for their students, our children. Whilst as a parent I hope to represent the interest of our school community and what we wish for our children's education.

My family has benefited from the expertise of previous board members and I would like to contribute my experience and knowledge to assist the school in achieving their outcomes. I believe my experience working in different schools gives me a good context to provide feedback and offer ideas towards the school's policies and directions.

Veronica Hall

Hello, my name is Vee Hall and I have two children at the school, year one and three. I work at a local high school in a Specialised Autism Learning Program. The program focuses on the achievement of positive academic, behavioural, social, and emotional outcomes for each student to maximise independence and access to further education and successful employment.

With my background in Education Support, my positive, patient nature and natural ability to listen, I believe this would help me support to the forward planning of the school.

I am a dedicated member within the school and wider community by supporting students' extra-curricular activities such as Netball, Football and Teeball. I enjoy seeing students reach their full potential and excel across all learning areas.

I would like to be on the school board as I have an interest in education and enhancing the educational opportunities of all children. "So why choose me? Because I genuinely care about our school and everything it offers our kids. I want to be part of shaping what comes next for us and our kids. I am connected with so many of you already so I know I can bring a massive variety of wants, needs, expeditions and desires from all of you to the table... and together we are better.

Thanks for reading!"
